## Summary

I'm a very passionate and creative individual who recently decided to become a web developer. I spent the last year learning front-end development in online environments like treehouse, freecodecamp and frontendmasters.
I feel very comfortable working with HTML, CSS, JavaScript, React.js, Figma, Bootstrap, Git and Github. I'm constantly learning new skills and languages, currently I'm focused on improving my abilities with TypeScript, React Native, Next.js, Node.js, SCSS and ChatGPT(OpenAI). I'm commited to evolve as a web developer and build a successful career in this industry, I'm a team player who is ready to join your team.
